

# LEGACY ROYALTIES

## Meeting the Needs of Royalty Owners ... One Owner at a Time

**Royalty Acquisitions** - Legacy Royalties is a leading purchaser of oil and gas royalties. We offer competitive prices and quick cash sales (as quick as 48 hours). We buy royalties throughout the United States, and we prepare the mineral deeds at no cost to the seller.

**Estate Appraisals** - Legacy Royalties provides appraisals throughout the United States for estate taxes, estate planning, asset division and bank reports. Each appraisal is prepared by a registered professional petroleum engineer. We also work with social services that qualify applicants owning oil and gas royalties.

**Title Transfer** - Legacy Royalties helps estates and individuals transfer oil and gas royalties. We prepare mineral deeds and quitclaim deeds to transfer royalties to heirs or new owners. We are familiar with the probate laws of most states, and we work with attorneys throughout the United States.

## Personal Attention. Ethical Standards. Professional Service.

**Steve Smith**, a registered professional engineer, is the founder and president of Legacy Royalties. Since 1994, Mr. Smith has worked as an oil and gas operator, mineral manager and engineering consultant. Mr. Smith is recognized as an industry expert and frequently speaks to professional and legal societies on appraising oil royalties. Mr. Smith holds a masters and bachelors degree in petroleum engineering from the University of Oklahoma and the University of Texas at Austin. Active in his community, Mr. Smith serves on the city council for Tyler, Texas and is past president of the Grace Community School Board in Tyler.
